

Sahil Arora

SOFTWARE DEVELOPER

Profile

A Passionate software developer with over 4 years of experience, I have demonstrated my ability to create robust and efficient web solutions that exceed client expectations. My proficiency in HTML, CSS, Js, Nodejs, MongoDB, SQL, and expertise in frameworks like Reactjs, Vuejs, Express, and Graphql, allows me to create responsive user interfaces and scalable backend and rest APIs

Employment History

Full Stack development (Internship), Lazy Idli, Bengaluru

MARCH 2023 - JUNE 2023

- Optimized database queries to improve application performance.
- Optimized the application’s performance by implementing caching and memory-efficient data structures.
- Integrated payment gateway.
- Made creative designs and user-responsive pages using Reactjs, Vuejs.
- Made scalable Rest APIs using node js, react, and graphql.
- Refactored existing code to improve readability and maintainability, resulting in a reduction of development time.

Discord Api (Discord Bot), Bengaluru

JANUARY 2021 - FEBRUARY 2022

Made a discord bot named Volt. Had almost 7 lakh+ active users, 3k-4k monthly revenue, and 4000 servers. It was used for the purpose of security of the server. It had more than 100 commands and more than 10 webhooks. The sole purpose of the bot was to detect if the user is a valid user using algorithms designed by me and with the help of Discordapi.
